WORK EXPERIENCE

Beaconhouse School System

MATHEMATICS TEACHER - CHILD PROTECTION
COORDINATOR
2019-2021

Details

Handled Mathematics For Middles

As a mathematics teacher I raised the average percentage result by 22% By Implementing Application Based Learning & Visual Approaches.

Served As Child Protection Coordinator

During my time I successfully reduced the child issues specifically bullying due to my friendly approaches with students.

Implemented IBL Based Lessons

Followed Inquiry Based Learning which helped students to improve their questioning power and understand the scenarios with their own logics.

Motivational Trends & Club

Introduced Transformers Club and gained the maximum enrollments where students were motivated to upcycle things and make something out of their creativity.

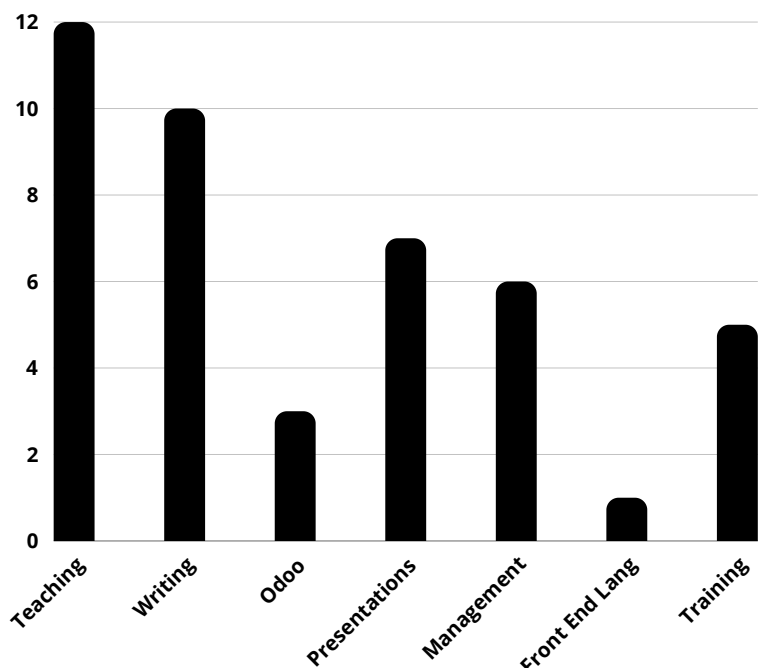

International Schools Award Project

With my students I handled a big project from scratch to results and analysis named "1 Penny Returns Many" where students learned the value of economy and finance moving through country.

Newsletters

During my tenure I provided my school with intuitive Mid Year & Yearly Newsletters where I covered the data and events very manageably.
